Millennium Talks: Smart & Clean From New Energy to Business

Come to hear and discuss how cleantech and energy are transformed to a new wave of business.

Date: 23 May 2016

Time: 14:00–17:00, followed by a networking buffet

Venue: Vertical Accelerator, Tekniikantie 2, 00150 Espoo

Jukka Mäkelä, Espoo and **Tiina Kähö**, Sitra: Cities as an energizing platform for people and businesses

Keynotes:

Professor **Kees Zoeteman**, University of Tilburg, presents a new study
“[Towards Sustainable EU Cities](#)” in which Espoo came first in the EU

Jenny Josefine Holen, from the City of Oslo tells the story of
how Oslo became the electric vehicle capital of Europe

Short presentations:

Simo Honkanen, Neste: What makes Smart & Clean so important to Neste?

Markku Makkonen, Fourdeg: Making smart energy choices easy for people

Outi Luukko, Touch point: Trash is the new gold

Alexander Host Frederiksen, Donkey Republic: MaaS for bikes — Lessons learnt from Copenhagen

Anu Kaukovirta-Norja, VTT: How to turn the big promise of a circular economy to
new business already today
